

RALLYS EQUITIES PRIVATE LIMITED

Disaster Recovery/ Contingency Plan

Disaster Recovery and Contingency Plan

1. Introduction

Information Technology (IT) and automated information systems are vital elements of most business processes. As these IT resources are essential to an organization's success, it is critical that the services provided by these systems continue to operate effectively without excessive interruption.

Contingency planning supports this requirement by establishing comprehensive plans, procedures, and technical measures that enable a system to be recovered quickly and effectively following a service disruption or disaster.

Contingency planning generally includes one or more of the following approaches to restore disrupted IT services:

1. Restoring IT operations at an alternate location.
2. Recovering IT operations using alternate equipment.
3. Performing some or all of the affected business processes through alternative arrangements.

2. Corporate Technology COB

All businesses of Rally's Equities (Pvt) Limited are dependent upon financial and non-financial information and must be able to access that information at all times.

Since the network facility is the primary information repository of Rally's Equities (Pvt) Limited, the network environment and its telecommunications infrastructure must be adequately protected.

This Contingency Plan has been prepared to cover functions that are critical to the business. It comprises all procedures and actions required to be taken when a contingency situation is declared.

The relevant procedures and scenarios are discussed in the following sections, together with:

1. Appropriate contingency authorizers.
2. Impact analysis for different scenarios.
3. Responsibilities assigned to relevant staff members.
4. Action plans to be followed.
5. References to any other applicable procedure or section.

3. Activation of the Contingency Plan

The Contingency Plan shall be activated if one or more of the following criteria are met:

1. Any high-priority resource becomes unavailable.
2. A critical resource is damaged or is not functioning properly.
3. Any other situation arises that may materially disrupt normal business operations.

4. Procedure to Execute or Cancel Pending Orders During System Failure

In the event of an Internet-Based Trading System (IBTS) failure for any reason, an investor may contact the broker's OMS EClear/NTT Operator to obtain an update regarding their pending or queued orders.

The investor may provide instructions to the OMS EClear/NTT Operator to:

1. Cancel any pending orders.
2. Place additional orders on the investor's behalf.
3. Amend any existing orders.
4. Obtain an update regarding the status of previously placed orders.

The OMS EClear/NTT Operator shall act according to the investor's verified instructions and the applicable internal procedures of Rally's Equities (Pvt) Limited.

5. On-Site Storage

All backups shall be stored on-site through the following methods:

1. Backup shall be maintained on a secondary database machine.
2. Backup shall also be maintained on: _____.

On-site backups shall be regularly monitored, tested, and updated to ensure that data can be restored when required.

6. Off-Site Storage

All relevant backups shall also be stored at an approved off-site location.

An accurate inventory of all off-site backups and records shall be maintained and documented in the Business Continuity Plan. Inventory lists shall be regularly checked and kept up to date.

The homes of staff members shall not be considered acceptable off-site storage locations and shall not be used for maintaining:

1. PC diskettes.
2. Hard drives.
3. CDs.
4. Backup devices.
5. Any other type of vital business record.

Off-site records and backup media shall only be maintained at locations approved by the management of Rally's Equities (Pvt) Limited.

7. Disaster Terminal

A Disaster Recovery Terminal provided by the Pakistan Stock Exchange has been installed at the alternate location and shall remain ready to facilitate clients in the event of a disaster or disruption at the primary office.

The details of the alternate location are as follows:

Address:

House No. 454-DD, Street 3
DHA Phase 4, Lahore

Contact number: 0316-9991907
